INDEX OF SUBJECTS AND AUTHORS

Acacia, The absorption of, from the pleural cavity of normal and tuberculous rabbits, 49

ACHARD, H. J. The problem of the child with latent tuberculosis, 405

Acid-fast bacteria, A method of following reaction changes in cultures of, 715

—— ——, nutrition of, The, 857

—— ——, reaction changes in cultures of, A method of following, 715

Activity in pulmonary tuberculosis, clinical, The determination of, from roentgenograms (A preliminary study), 842

Additional diagnostic methods for cases of suspected intraocular tuberculosis, 253

Adrenals and thyroid in experimental tuberculosis, The, 266

Adult life, tuberculosis in, The prevention of tuberculosis based on the relation of childhood infection to, 994

Air passages, upper, The dissemination of bacteria in the, I. The circulation of foreign particles in the mouth, 903

Alternation of rest and exercise, The importance of subliminal symptoms and period of, in the treatment of pulmonary tuberculosis, 236

AMBERSON, J. BURNS, JR. Roentgenographic pleural annular shadows in pulmonary tuberculosis. An investigation of their clinical significance and a hypothetical explanation of the mechanism of their formation, 723

——, ——. ——, ——. The roentgenographic pathology of pulmonary tuberculosis, including a description of tissue changes as revealed by serial stereograms and a critical study of the clinical bearing of the mutations of destruction and repair, 1

ANDERS, JAMES M. The campaign against tuberculosis, 345

Annular shadows, Roentgenographic pleural, in pulmonary tuberculosis. An investigation of their clinical significance and a hypothetical explanation of the mechanism of their formation, 723

Antituberculosis campaign in the West Riding of Yorkshire, England, Notes on the, 784

—— measures, Resistance to tuberculosis and its relation to, 915

Aorta, lungs and, in tuberculosis with syphilis, An X-ray study of the progressive changes in the, 588

Apical pleuritis and its relationship to pulmonary tuberculosis. A statistical study of stereoscopic roentgenograms of 366 consecutive adult chests, 323

Application of ultraviolet radiation in tuberculous laryngitis, Theoretical considerations on the, 835

Approximate index of tuberculous involvement, The spleen as an, after subcutaneous infection, 555

Arrested tuberculosis and subsequent infections, experimental. Reinfection in tuberculosis, 429

Artificial light therapy, Sunlight and, in tuberculosis, a critical review, 75

Artificial pneumothorax, Purulent effusions complicating, 599

—— ——, Seven years' experience with, 809

—— ——, The effect of, on the collateral lung, 620

Bacilli, tubercle, Are eating utensils carriers of, 351

——, ——, granules, A new and easy method for the demonstration of, 662

——, ——, in excised animal lymph nodes, The survival and virulence of, 388

——, ——, The Griffith method for the direct isolation of, 899

Bacillus, tubercle, bacteriology of the, Chemical problems in the, 705

——, ——, Chemical problems in the bac teriology of the, 705

Bacillus, tubercle, The effect of carbon dioxide on the, Studies on the influence of carbon dioxide on resistance to tuberculosis, 562
Bacteria, acid-fast, reaction changes in cultures of, 715
A method of following, 715
——, ——, nutrition of, The, 857
—— in the upper air passages, The dissemination of. I. The circulation of foreign particles in the mouth, 903
Bacteriology of the tubercle bacillus, Chemical problems in the, 705
BALDWIN, EDWARD R., AND GARDNER, LEROY U. Reinfection in tuberculosis. Experimental arrested tuberculosis and subsequent infections, 429
BARLOW, NATHAN, AND THOMPSON, JAMES C. Small pneumothorax in tuberculosis (Abstract of a monograph), 611
BARNES, HARRY LEE. Tuberculosis of husband and wife. A report of 150 cases, 670
BLACK, LOUISA T., CORPER, H. J., COSMAN, PHILIP, AND GILMORE, WILLIAM M. Hypertrophic osteoarthropathy in pulmonary tuberculosis. A survey of a sanatorium group of patients, 357
BLOOMFIELD, ARTHUR L. The dissemination of bacteria in the upper air passages. I. The circulation of foreign particles in the mouth, 903
BOSWORTH, ROBINSON. A consolidated medical report covering discharges from thirteen Minnesota county sanatoria, 66
BOUTWELL, H. K., LEONARD, R. L., AND FLOYD, CLEAVELAND. An X-ray study of the progressive changes in the lungs and aorta in tuberculosis with syphilis, 588
Brain, tuberculoma of left frontal lobe of, A case of, 665
Brehmer and Dettweiler, a review of their methods of treatment of pulmonary tuberculosis, 950
BREUER, MILES J. Tuberculosis in discharged service men, 678
Bronchial tree, The musculature of the finer divisions of the, and its relation to certain pathological conditions, 689
BROWN, LAWRASON. Some causative factors of pulmonary tuberculosis, 518
BUSHNELL, GEORGE E. The rôle of the International Union in combating tuberculosis, 602

Calcium chloride, The intravenous injection of, in the treatment of intestinal tuberculosis, 876
Campaign against tuberculosis, The, 345
——, antituberculosis, in the West Riding of Yorkshire, England, Notes on the, 784
Carbon dioxide, Studies on the influence of, on resistance to tuberculosis, the effect of carbon dioxide on the tubercle bacillus, 562
—— ——, the effect of, on the tubercle bacillus, Studies on the influence of carbon dioxide on resistance to tuberculosis, 562
Carriers of tubercle bacilli, Are eating utensils, 351
Case of tuberculoma of left frontal lobe of brain, A, 665
CAULFEILD, A. H. W. Additional diagnostic methods for cases of suspected intraocular tuberculosis, 253
Causative factors of pulmonary tuberculosis, Some, 518
CHADWICK, HENRY D. Malnutrition and its relation to tuberculosis, 674
Changes, progressive, in the lungs and aorta in tuberculosis with syphilis, An X-ray study of the, 588
——, reaction, in cultures of acid-fast bacteria, A method of following, 715
Chemical problems in the bacteriology of the tubercle bacillus, 705
Child with latent tuberculosis, The problem of the, 405
Childhood infection, relation of, to tuberculosis in adult life, The prevention of tuberculosis based on the, 994
Circulation of foreign particles in the mouth, The. The dissemination of bacteria in the upper air passages, I., 903
Clinical activity in pulmonary tuberculosis, The determination of, from roentgenograms (A preliminary study), 842
Collateral lung, The effect of artificial pneumothorax on the, 620

Combating tuberculosis, The rôle of the International Union in, 602
Comparative study of the pathology and X-ray densities of tuberculous lung lesions, A, 278
Comparison of vital capacity readings and X-ray findings in pulmonary tuberculosis, A, Studies on the respiratory organs in health and disease. IV., 884
CORPER, H. J., AND RENSCH O. B. The absorption of acacia from the pleural cavity of normal and tuberculous rabbits, 49
——, ——. ——., COSMAN, PHILIP, GILMORE, WILLIAM M., AND BLACK, LOUISA T. Hypertrophic osteoarthropathy in pulmonary tuberculosis. A survey of a sanatorium group of patients, 357

——, ——. ——., ——, ——, ——. ——. Studies with morphine in experimental tuberculosis, 643
COSMAN, PHILIP, GILMORE, WILLIAM M., BLACK, LOUISA T., AND CORPER, H. J. Hyperthrophic osteoarthropathy in pulmonary tuberculosis. A survey of a sanatorium group of patients, 357
Costs of tuberculosis, The, 178
County sanatoria, Minnesota, A consolidated medical report covering discharges from thirteen, 66
Cultures of acid-fast bacteria, reaction changes in, A method of following, 715

De Phthisi Pulmonari, Thomas Willis and his, 934
Demonstration of granules in tubercle bacilli, A new and easy method for the, 662
Desiccation method, The safe removal of tonsils by the, with the high frequency current in poor surgical risks, with especial reference to tuberculosis, 824
Determination of clinical activity in pulmonary tuberculosis from roentgenograms, The (A preliminary study), 842
Dettweiler, Brehmer and, a review of their methods of treatment of pulmonary tuberculosis, 950
Diagnosis of pulmonary tuberculosis, Some considerations regarding the, 981
Diagnostic methods for cases of suspected intraocular tuberculosis, Additional, 253
Dietary requirements in pulmonary tuberculosis, The, 870
Direct isolation of tubercle bacilli, The Griffith method for the, 899
Discharged service men, Tuberculosis in, 678
Discharges from thirteen Minnesota county sanatoria, A consolidated medical report covering, 66
Disease, respiratory organs in health and, Studies on the, IV. A comparison of vital capacity readings and X-ray findings in pulmonary tuberculosis, 884
Dissemination of bacteria in the upper air passages, The. I. The circulation of foreign particles in the mouth, 903
Divisions of the bronchial tree, The musculature of the finer, and its relation to certain pathological conditions, 689
DUBLIN, LOUIS I., AND WHITNEY, JESSAMINE. The costs of tuberculosis, 178
DUBOFF, W. S., AND MARKEL, CASPER. Terminal or cachectic edema in the course of pulmonary tuberculosis, 973
DUNHAM, H. KENNON, AND SKAVLEM, JOHN H. A comparative study of the pathology and X-ray densities of tuberculous lung lesions, 278

Early recognition of tuberculosis, What constitutes the, 397
Early tuberculous lesion, The reason and remedy for missing the, 185
Easy method for the demonstration of granules in tubercle bacilli, A new and, 662
Eating utensils carriers of tubercle bacilli, Are, 351
Edema in the course of pulmonary tuberculosis, Terminal or cachectic, 973
Education in tuberculosis, Some problems of medical, 755
——, medical, Some problems of, in tuberculosis, 755
Effect of artificial pneumothorax on the collateral lung, The, 620
—— —— nitrous oxide, natural gas and formaldehyde on experimental tuberculosis, The, 637

Effects of limiting the respiratory excursions of the upper thorax in refractory cases of pulmonary tuberculosis, The. A preliminary report, 547
Effusions, Purulent, complicating artificial pneumothorax, 599
Empyema, Tuberculous, 339
England, Notes on the antituberculosis campaign in the West Riding of Yorkshire, 784
Excised animal lymph nodes, The survival and virulence of tubercle bacilli in, 388
Exercise, rest and, The importance of subliminal symptoms and period of alternation of, in the treatment of pulmonary tuberculosis, 236
Experience with artificial pneumothorax, Seven years', 809
Experimental arrested tuberculosis and subsequent infections. Reinfection in tuberculosis, 429
—— tuberculosis, Studies with morphine in, 643
—— ——, The adrenals and thyroid in, 266
—— ——, —— effect of nitrous oxide, natural gas and formaldehyde on, 637
—— ——, —— value of flavine compounds in, 656

Factors, causative, of pulmonary tuberculosis, Some, 518
Finer divisions of the bronchial tree, The musculature of the, and its relation to certain pathological conditions, 689
Flavine compounds in experimental tuberculosis, The value of, 656
FLOYD, CLEAVELAND, BOUTWELL, H. K., AND LEONARD, R. L. An X-ray study of the progressive changes in the lungs and aorta in tuberculosis with syphilis, 588
Focal reaction, The, 218
Following reaction changes in cultures of acid-fast bacteria, A method of, 715
Foreign particles in the mouth, The circulation of. The dissemination of bacteria in the upper air passages, I., 903
Formaldehyde, The effect of nitrous oxide, natural gas and, on experimental tuberculosis, 637
Frontal lobe of brain, left, A case of tuberculoma of, 665

GARDNER, LEROY U., AND BALDWIN, EDWARD R. Reinfection in tuberculosis. Experimental arrested tuberculosis and subsequent infections, 429
GAUSS, H., RENSCH, O. B., AND CORPER, H. J. Studies on the influence of carbon dioxide on resistance to tuberculosis. The effect of carbon dioxide on the tubercle bacillus, 562
——, ——., ——, ——. ——., —— ——, ——. ——. Studies with morphine in experimental tuberculosis, 643
